

Trainee Research

Paper Poster Dimensions:

- Poster display boards will be 4 feet high x 8 feet long (48" x 96"), landscape format
- Maximum poster size should be 4 feet high x 8 feet long (48" x 96"), landscape format

Completed Research

ePoster Guidelines:

- Use PowerPoint 2007 or newer, and set the dimensions of your poster to: **140 cm (55 in) width x 73 cm (28.5 in) height**, in **landscape orientation**.

- Number of pages (slides): **one (1)**.
- Make sure your text and background have a **large contrast** (dark lettering on a light background or the reverse).
- The monitors are full high definition and therefore the letters on-screen look nice and smooth. It's generally advised though, that for electronic posters to be read on-screen, a minimum 24-28 point size (or bigger) for body text fonts is used, to ensure optimal legibility from the usual distance of 3-5 ft. A little larger text (e.g.: of up to 32 pt size) might also be a good idea as it will provide a comfortable reading from an even larger distance, such as up to 8 ft.
- For embedded images prefer .jpeg or .png file formats in a resolution of 72 or 96 dpi.
- Do **not** use animated effects, "animations" and videos.
- Before submitting, save your poster as a **PDF file**. All recent versions of PowerPoint and most other software applications allow you to save your poster as a PDF file from the "File > Save as" menu or through the "File > Print > as .PDF" option. If you are unsure of how to save your poster as a PDF file you can find more information and tutorials on our **Support Center** at support.scigentech.com.
